

## MOBILE PROTECTION

# Solar Trailer

Our high-quality towable security tower delivers powerful, flexible site protection wherever it's needed. Engineered for rapid deployment, it combines advanced surveillance cameras with integrated audio deterrent systems to actively monitor and protect your assets in real time.

Designed for demanding environments such as construction sites, infrastructure projects, and remote locations, the tower provides elevated visibility, crystal-clear video capture, and live audio warnings to deter intruders before incidents escalate. Its robust, towable design allows for quick relocation, ensuring your security moves with your project.

With reliable performance, intelligent monitoring, and a strong physical presence, this solution doesn't just record threats it helps prevent them.

### Key Features

- + Full 360° coverage via four high-quality static infrared CCTV cameras.
- + Expandable system with optional slave cameras to increase coverage.
- + Towable trailer design for deployment in hard-to-reach areas.
- + Live audio challenge for proactive intruder deterrence.
- + Smart analytics including custom virtual zones and line-crossing detection to reduce false alarms.
- + Fully autonomous solar power solution for off-grid operation.
- + Global connectivity (world SIM) for reliable communication.
- + Remote battery monitoring and GPS tracking for real-time oversight.
- + 24/7 monitoring by our in-house NSI Gold control room.

### Coverage Options

- + Primary detection (tower): 40-60m radius with full 360° coverage (depending on camera specification).
- + Extended coverage: additional 40-60m per connected slave camera (maximum of two), depending on camera specification.
- + PTZ camera: up to 100m coverage in two directions, with seven preset inputs.
- + Perimeter thermal camera: up to 120m coverage in two directions.
- + Perimeter camera option: up to 80m coverage in two directions.

### Additional Camera Options

- + ANPR (Automatic Number Plate Recognition).
- + Thermal cameras.
- + PTZ (Pan-Tilt-Zoom) Camera.
